Since the last courtcase was won (ed. 20 jan 2020 link

<https://www.dutchnews.nl/news/2020/01/court-blocks-education-minister-from-sacking-board-of-islamic-school/>)

1.15 Suddenly we hear “that person and that person have been laid off”. We had a fathers groupapp, where we could ask all kinds of questions. At that point we only asked for one thing: a parental meeting. 2.05 This is asked several times, but is being ignored. You also get intimidated by 5 other parents in the groupapp. Eventually you get blocekd by the groupmanager. And the only thing we wanted is a parental meeting. 2.46

Then the parental advisory group was approached, a member Aladin had withdrawn, but the other Loukili was still there. But he suddenly went from parental advisory group, to parental board. No other information becomes available. 3.33 A private message has been send to Loukilli: “Could you organize a parentel meeting for us, and can you make sure no descions are made before that? “3.53 I was stil pretty neutral in the situation. I wasnt with Atasoy or Karadag (ed. principal and secretary of the school CHL). I thought it was strange that no information is coming out, im being blatantly ignored, and no parental meeting is being organised for such a large intervention (ed. Atasoy and Karadag were laid off). And why are “spreaders of fitna”? At some point the whole groupapp is being blocked. So we created our own groupapp, no one

was excluded. **Min 5.09** We dug up facts that the parentboard came about under unlawfull cirumstances.

Proces Parental Board (PB) Elections

5.20 It seems instead of “1 montly term of announciation” and that “PB vacancies” are avaialbe, that they did all of this in “ 6 days and finished it”. Via a message on SOMtoday. (**32.05** internal mail for parents) we ar notified there are only 2 applications made. And for that reason these 2 applicants will become the new PB. Then we researched and heard from parents “i also applied”. And we get more. In total 6 instead of 2. We also heard from a man, i can’t remember his name right now, that he als applied within the time limit, but they didnt take that in account.

6.52 Then he had a conversation with Loukilli “Whats going on?” then his story came “ we are going to solve this amongst ourselves, and you will withdraw”. So that parent withdrew himself, the reason Allahu Alam. In the groupapp he still tries to make clear “this is to fast and not according to regulations, but i withdrew for the sake of the school, that it wil not drag on etc etc.” Its fine he did that, but than give a chance for another applicant. But that didnt happen. We are thinking: “this isnt right”.

De coup

7.38 Then we continue to search. Because the parentel meeting isnt organized. Than you try to figure out yourself “ wat is going on?” Then you come to the discovery “a coup has been made with a clear plan/strategy which had been placed in the mothersgroup app. Then it appears that the woman who has been made one of the PB members is Laamimach best friends wife. And the PB is an important entity, who make descisions in our name, unknowing parents, who are now putting their signitures for job nominations (ed. new principal and employees).

9.00 So one of those two new people, PB members, is the wife of one of the best friends of the one who has made a coup. And that friend has been there at the courcase with Laamimach. (ed. another courtcase on unlawfully laying of Atasoy and Karadag) An unknown father.

9.20 And then i found out that this man was in the fathergroupapp with two numbers. We asked: “who is this second number?” “Yea a father”

O i skipped something, because why we asked. **9.59** He came together with the message from mr Laamimach, that Atasoy and Karadag where laid off. But normaly information about the school comes trough

SOMtoday. But Laamimach didnt have acces to SOMtoday. So he comes with this “fahter” with the message. But who this “father” is: unkownw. We asked Loukilli who seemed to know another fahter who might know this “father”. 10.46

We first thought this is Laamimach himself. But it appears, what this man himself denies, is the husband of the new woman in the PB. He placed himself an accomplice of Laamimach in the fathersgroupapp, without telling the other parents “listen, i am this person and the father of this child in ths class”. Eventually he got unmasked. And what happend in the fathersapp, exactly 11.46 happend on the side of the mothers.,

12.10 A link: I see hier in a document it says 25th april Atasoy laid off and two days later 27th april Karadag laid off. And when we look at the father and mothergroupapp we see a patern. 12.55 From that moment we see int the groupapps: “we have to save the school, this can’t go on, there are children with suicidal thoughts, we have to take matters in own hand” .

Groupsapp:de Coupgroep

13.10 There was also a special groupapp made for this coup. Only people who are interested in that, are there. It says very clear: “Everyone who has the slightest feeling i will not go along, get out immediatly from the group”. So for me its very clear: a coup has been made in conspiracy with PB, the father side and the mothersside. 14.20 Also it appeared that the mothers signed letters, which has been sent in the middle of the night before the courtcase of Laamimach. So he can show the judge there are some “worried mothers”. You can also see in the verdict of the judge, that on base of “worried mothers” the descision was made. This judicial procedure was based on that, the unrest which according mothers is there. The judge has been fooled.

Weird action judge

16.18 When Atasoy and Karadag went fort heir case, they also wanted to show with document that there is “acute danger”, “the school is in trouble”, and that there are parents who also experience difficulty how things are going now. With their name and signature -20.47 its about a total of 120 125 single parents, so double over 200, 17.44 In these documents it says they do not agree with the PB, isnt this judge seeing that a “urgent appeal” is necessary. But from those few parents, he saw some neccisity. (ed. to keep the situation under control of Laamimach)

The “urgent appeal” is also detested from laamimach’s lawyer: “an unprecedented peace”. While this is not the case. Teachers are not being paid on time, books are not paid for. And this unrest is being underlined with these documents (ed. signed from the parents against the PB)

Turning in documents at the school

29.09 We have seen a document, that you announced you were coming to show your discomfort, together with other parents. And that before you would come, a message has been gone around in the school that everyone had to leave before 12 o'clock. And symbolically you would 5 for 12 turn in the documents. And that was very suspicious, “you surely have something to hide if you are this unprofessional, you have something very dark to hide”. You do like this. A group of 20 parents, keeping corona regulations, we are going with a small group and on some distance. We only came to hand over these documents and then we would leave. **17.57** We came to school with these documents to turn them in. Before that, after salat al fajar I left 3 audio messages, not the shortest. I wanted to announce that before we are going to do this, we want to talk with the persons involved, who were speaking on our behalf. Parental advisory member Aladin: “come, please talk, you don’t have to agree with everything, come talk to us, give us information, what is going on? How are we going to continue, we are all brothers” to come to a reconciliation, to come together. He isn’t coming, has his own reasons.

18.52 Then I call upon the unlawful PB member, who is talking on our behalf. And takes all sorts of decisions, without any consultation. “Come at the table, to take these letters from the parents. Hopefully you will make the decision to withdraw from the PB, because you know you are sitting there unlawfully, because these parents signed this” **Min 19.56** “more than 120 parents gave up their trust in the PB, so why do you continue? We don’t want you to speak on our behalf, agreeing with decisions made by Laamimach.” **21.07** It was about the PB chairperson who makes very important decisions, on our behalf, I call to you “please come sit with us or organize a parental meeting”. Alas. But then in the end you get: “you are completely right on what you are saying, it is all

correct” but he felt I hurt him in his person. Why? Maybe i unmasked him sitting there, unlawfully. **21.55** But, he was prepared to talk with me “at 19 o’clock in the evening, only with you, not in company of the other parents”. I said: “brother, you had that chance before, now i have talked alot with the other parents. So i am not here on my own, but with a number of parents, not to protest. But to give these letters to you in regards giving up trust in the PB in this case you. The time to talk with me has passed, but you can come and talk to us”. In the end he says: “I won’t come i am all the way in Utrecht”.

23.01 Okay, so we are at the school and we ringed the bell. It suprised me. I have never experienced to ring the bell at the school. Normally you walk in, the door is always open, the janitor is there, and you are directed to the right place. No, this time the door was locked. And we only came to turn in something, announced with 3 audiofiles. **24.00** I atleast expected to be welcomed by the janitor. That didn’t happen ..

Then you make a call. It happend that At5 (ed. local newscrew) was there. I couldnt send thema way, anyways the filmed everything, whatever.

Previous PB member calls

Also the previous lawfull PB member calls mr Aboez. He calls me because according to him, awhile back i wanted to talk to him about how things are going. **25.17** Back then I was busy speaking to PB members personally. “why did this happen?” I asked Loukili, doesnt come, being ignored. Throug some people I end at mr Aboez, the former PB chair person. I left a message but he never responded. So then we were at the door ringing the doorbell, suddenly this mr Aboes calls. “I understand you want to talk to me?” “YES, back then! But yes come!” “yea we have to talk alone” “yea, but now i am with parents, and it happends that the media is here as well. You have to come this way, with the others” “we are not going to do that” “fine, suit yourself, but we are here to turn in documents containing information we dont trust you as PB members”.

26.53 Than i call the new unlawfull chairperson mr Loukili. He can’t come because hes in Utrecht. “But is there someone on this school to welcome me to only take these letters? Its like a deserted island”. .Okay so then i

try to reach mr Laamimach. I get his voicemail, i leave message, no return message until this day.

Consolation

Now you know how insulting they go about their business and dont take parents serious. That really hurt me. Never would i have expected to go through this. I really had to cry in company of NRC, he had to console me. (ed. NRC : dutch newspaper among others who occaisionally reported negative on the school) Then i thought "in the time of Atasoy, i get a hug when i come in" 28.26 But now, the same newspaper who tries to take down the school, has to console me. Never thought i would end up in this situation. I just had to cry. Eventually we left. We scanned the documents and send them to all thee mails that were listed on the school website. Everyone received it.

The parental meeting

30.55 So then we try to organize a parental meeting, because they dont respond on any of our messages of contempt on the PB and the chairperson. We sent a letter: "if you don't respond within 24 hours, we will organize an parental meeting, because apparantly you cant. We are prepared to arrange it, and all according to corona regulations." Then throug SOMtoday a warning: "a parentel meeting is being organized 33.06 "Don't go!". So first we thought "we did well to arrange this fort hem, because maybe it was for practical reasons they couldnt do it, no time, to busy.30.06 "don't go". What are you trying to hide? If you can't talk, let the parents talk to eachothers. This all happend because of: "why are those two laid off and what is going to happend next". That's what we wanted to talke about. Behind the scene we hear there are agreements eing made with Saskia Grotenhuis, Rasit Bal (ed. the new principals) "how", "what" we want to be involved. "What are the plans for the future?". In the beginning: "you are not heard, then they are silent, then they deny, then they lie". Your own PB, who actually has to talk on your behalf. They put their signature on behalf of the parents. That means that Rasit Bal and Saski Grotenhuis by us, parents, have been hired. And this was also what Laamimach's defence, that these two were aproved by the PB. 35.17 Eventually there was a reasonable amount of parents who showed up at our parental meeting. But also some parents became afraid fort heir children and chose not to come. I myself don't understand why they didn came. For me it was that everyon had the right and opportunity to talk to eachother as parents, through whatsapp or phone.

That this country is taking away your rights to talk, we are not going to tolerate that. Something has to be said on that.

Pawns

What you see in the group app, you see they put pawns, who rebuke parents who have a different opinion. Als that some parents don't understand the dutch language wel enough, they abuse that. **36.44** You can see 1 to 5 parents, who have nothing els to do but to hurt with messages, respond very quickly, very rude language, its very indecent how they treat eachother. Then you try to defend the parents, and slowly you can push those other parents in a corner "keep your mouth for a while", we dont even know if they are parents.

Parental evening Laamimach

37.45 Then suddenly they organize an parental evening. First they take it from us, saying there is no time, its corona etc etc.. **Min 39.05** I didnt go to this meeting out of principle. I also warned others not to go. I already saw through their game, don't do it. But suddenly there was alot of time. You get a parental evening. In classroom, in groups. aankomen, doe dat niet. Maar opeens was er dus wel heel veel tijd en krijg je een ouderavond, welke klassikaalwordt georganiseerd. Dit hebben ze in groepjes gedaan. **38.40** But these parental evening was staged, so that 4 to 5 parents that were in the groupapp, now were sitting in the class, to rebuke the parents. **39.48**. So now in groups of total 15 to 20 come in the class. And those 4 to 5 parents keep sitting there. And when the situation becomes to tricky they say "think of the children, lets only talk about this, lets talk about the canteen". At some point the other parents are on tot hem. But they are afraid tos peak in the moment. You get pressured. You have to imagine you are there with: Bal, Laamimach, some advisors, Saskia and the supporting parents. If you are a little bit brave, you get knocked out with 2 hits, as a matter of speech. Thats how they played it, to give the idea that everyting is nice and peacefull.

min 39.22 in the time of Atasooy and Karadag, the parental evening was in an open hall, you pray together, everyone is sitting, nice and that was also in badtimes (ed. during the slandering and false accusations)

Schooltrip

42.32 At the moment we needed the "urgent appeal", because we were in the newspapers "parents are angry". A schooltrip is being organized. A schooltrip during corona? All these risks? The children havent had

school in 3 months. No exams. The children got a good report for no reason. The teachers weren't paid. What is that schooltrip for? That is solely to obstruct the "urgent appeal" to tell the judge: "look mr judge look at the pictures, smiling children, nothing going on here, everything under control, let's take it easy". There is no other explanation for such a trip during corona, to take so many risks with their health, and safety.

"Mr Inspectorate take a better look at those CC's"

44.30 Then the inspectorate. "The inspectorate must think something of this? The PB is unlawful, don't they see that? We made it very clear right?". So you take it to the inspectorate. So you have judicial procedure, but still weird things are happening within the school. You are thinking: this is going to give to school problems.

Then you call this institute who is supposed to have a supervising role: did this PB follow the rules. Did Laamimach act according to the rules? That's what the inspectorate is for. They check "code of good governance". Then you ask for a meeting with the inspectorate. We first sent our story through email, and asked if they can check what is the problem? Then we get a response that the inspectorate contacted the school and they say: "there has not been recorded any complaints". But how is this possible, because scanned and sent all these documents to the school. And it also happened we sent it all to the inspectorate. In the same email. He says "we haven't received anything". Then I'm thinking: "look mr inspectorate, look closely to those CC's". So then we make an appointment with the inspectorate.

47.26 Our most important points are about the PB and "code good governance". The Inspectorate already checked that before. So we ask: "could you do that again? To confirm that the PB has acted according to regulations. And what about Laamimach did he act according to the rules? A whole conversation, one and half hour, you come to the conclusion: **48:27** it's up to the judge. The inspectorate has no influence. They can't intercede in "code good governance" what they tried to explain the last couple of years "that has to be in order". And now when things are not going well at all, because very clearly people were laid off unlawfully, not according to the rules, means the "code of good governance" isn't in order. The inspectorate isn't doing anything with this. Why? "because the judge is going into that". I say "leave the judge out of it, that is between Atasoy, Karadag and Laamimach. Let's talk about what is happening now on the school. What we see, you can see that as well as Inspectorate?" "No we are not going to start with that". Then he says "that complaint ends up with the new schoolboard, Grotenhuis/Bal, did

you turn your complaint over tot hem ? “ “you can see in the email that the complaint has been filed with them? “ “ but you are not prepared to talk with mr Bal? “ 50.25. I say: “According to me, we are skipping some steps, mr Bal is AFTER my complaining, so i think its logical, mr Bal is not involved with this complaint” “ but he is part of the new board” “not in my view, he is there unlawfully”. In the end there is no explanation. For oth issues we are directed towards the judge. I say: what did i come here for?” The inspectorate says: “If i ca narrange a meeting with mr Laamimach” “we have tried to do that multiple times”. “But why didnt you go tot he parentel meeting?” “ i didnt feel safe there. He knows he can’t convince me, but he can make me angry, and than he has a reason to put me away as an agressive person. I wanted to prevent that” I really want to sit together with the three of us. Together with the inspectorate, i am still waiting.
